This is a demo version of the current full version of the library.We're constantly bombarded with images of the earth – blue oceans, snow white beaches, brown land, lush greenery. With so much visual information flying at us, it's good to be reminded of how unique and valuable it is. These images are from NASA's satellites, airbases, land bases, space vehicles and many other programs. Of course, images don't tell the whole story. They also tell us how special we are. As a planet with a breathable atmosphere, with an average surface temperature of -50C and an orbital period of 365 days,
