PSSend Free Registration Code

- Supports multiple monitors - Includes powerful options to configure the screen capture - Embed the HTML code needed to insert the screenshot into a website - Supports capture of all processes running in the system - Compatible with Windows XP SP3 and Windows Vista SP1 or higher - Installer package supports Win, Linux, and Mac OS X - Can capture images from all remote computers on a local or remote network - Allows capturing images of open windows and desktop screenlets - Copies the desktop and clipboard to the clipboard - Show the number of captured images in the application tray - Attachments are created using MS Outlook and MS Word, and can be sent from the application PSSend-pro is an application that helps to take screen-shots, either by pressing the Win+PrintScreen or (win+printscreen+r), or by using the keyboard shortcut Ctrl+Alt+PrtScrn. During the screen-shot process, the various states of a process can be recorded, such as whether it is suspended or not, the current memory usage, the current network usage, the current CPU usage and much more. PSSend-pro includes options to save the captured images to the clipboard and to attach them to an email message. In case you find that the screen-shot taken is too big or the image is too dark, you can choose the brightness level to be used in the screen-shot. The program can take screen-shots from remote computers through a local network or a web server. In addition to capturing screen-shots, PSSend-pro can also take snapshots of the desktop, including images of the current open windows. Thanks to the integrated clipboard recorder, you can use the saved snapshots to create a web page, a screen-shot preview, a presentation or even an eBook (PDF). The installation wizard includes a complete tutorial on how to create the perfect screen-shots and send them. PSSend-pro is compatible with the following operating systems: - Windows XP - Windows Vista - Windows 7 - Windows 8 - Windows 10 - Mac OS X 10.3.9 or higher Notes: - If the program won't open, try pressing Alt+PrintScreen+r - For more information, use the official web site: When you select a screen-shot location, PSSend-pro will download the screen-shot directly from the computer.

What's New In PSSend?

System Requirements For PSSend:

Minimum: OS: Windows 7, 8, 10 (64 bit) Processor: 2 GHz, 4 GHz Memory: 2 GB RAM Graphics: NVIDIA® GeForce 8400 or ATI Radeon® HD 4000 DirectX: Version 9.0 Storage: 3 GB available space Additional Notes: Due to the number of files and the large size of the installers, the game may take some time to download.
