site by It is the year 2089. Earth, once a chaotic, polluted wasteland has now become the most valuable resource. The only humans that live on earth are the rich, and the only thing they care about is where they will find the next new planet for their new Earth. On the planet Tiox, an evil man named Librarian has discovered a new planet called Earth 2. Tiox is so paranoid of Earth 2 because it is a mirror planet to Earth 1, and it could bring Earth to destruction. Tiox is now going to attack Earth 2, and force Earth 2 to do whatever he wants. If Earth 2 doesn't obey his requests, he will give Earth 2, as well as everything on Earth 1, to be destroyed by his robot army and robot satellites. With only a few months before Earth 2 is attacked, Earth 1 takes the only course of action left to them, they will start a military campaign against Tiox. Tiox has now kidnapped your sister, and you are sent out to infiltrate Earth 2, rescue your sister, and return to Earth 1. But are you up to the task? 'Well, this is going to be a great adventure, isn't it?' 'The only thing is, we don't know where we're going or what we're going to have to do to get there.' 'Well, I don't know if you noticed, but I did remember there was a little sinkhole back in the forest.' 'The sinkhole?' 'Yep. The sinkhole.' A big hole in the ground, with hardly any light at the bottom and water spilling out all around it. It was hidden in the shadows of a forest. 'A sinkhole?' 'Yep. What I'm thinking is, if we could find a way to the bottom, maybe we could see if we can climb out of here. Maybe find a path back to the forest. Then we could find our way out of here.' 'Good idea.' The boys were getting ready for their trip. 'So where's the sinkhole then?' 'Right over

The civil war in Europe, the most ancient of the human conflicts, is repeating itself again. Terrorists and communists are on both sides of the fence, struggling for supremacy. But, instead of taking sides, a new group has arisen, The Secret Hitler's Army, committed to saving humanity. These are The Survivors. You are one of them. You are Jan. Your story: Jan. The city is under siege. The army of The Survivors is just outside the walls and the signals of agreement between the government and the rebels are growing weaker every day. The civilian population is desperate. Those who are lucky enough to live can enjoy the relative safety of the houses inside the walls. However, the roofs are fragile. If you drop a tile on one of them, you will be vulnerable. You have to move, crawl, climb, jump... Everything depends on you. Jan. You are selected for the mission. The terrorist groups have decided to focus their attack on the buildings inside the walls. Your mission is to manage to pass through the lines of the government forces and to reach the top floor of one of the buildings of the city, without being seen or being noticed, to take out the engineers of the group responsible for the attack. This is no easy task, especially as you will be fighting a very high number of soldiers in close combat. The walls are not your friend. That's where your skills come in. You need to move stealthily, avoid being killed and get the keys from the engineers so you can go through the gates at the end of the mission. In order to reach your objective, you will have to pass through many doors, roofs, ladders, pipes, windows and walls that may be guarded. However, The Guard has a weakness: traps. Although the guards tend to be very vigilant, sometimes they forget about some machines and containers that may have mechanical systems. You can use your abilities to avoid them in different ways. The guards are looking for you and you have to be very careful not to get killed. Try to be the invisible ghost. Another factor that may help you is the fact that your actions may not be noticed. The environment, the way you move,

the way you hide, your footsteps, the sound you make...  
Everything is important. This may also be used to avoid patrols  
from the soldiers in the field.
