

The xio500 blu-ray is really nice for gaming and media use. For about \$80, it's a very good gaming media player. the only catch is there are numerous dvd regions on the blu-ray. There's no doubt that sony is leading in this race. The xio500 is an impressive device. Similar to the uxmax, the xio500 has unique and great features. the xio500 has a 22hr battery life which is a remarkable feat for a player. It's also quite light at 3lbs The xio500 is a full-function DVD player, not a player/recorder. This player has a few small glitches but is very easy to use. The xio500 is an excellent home theater media player, with a nice design and sleek feel. The xio500 is an excellent player with a lot of accessories. It comes with amazing features

---

but still not the best value for the money. The xio500 is an excellent player but it lacks features of other dvd players. It has a very good and generous 22hr battery life and has a wide variety of connectivity options. The xio500 is a great solution for those looking for a good media player. It has an impressive 22hr battery life but there are no extras included, such as wireless so this is a con. The remote has a few glitches and is a bit bulky. I would recommed this player for someone looking for a good media player.

The xio500 is an excellent player but with its huge 22hr battery life and neat design, this media player is great. Price: \$120 Blue light shining well in dark rooms, included in the package. The xio500 comes with a 2-year warrantee The xio500 is a high quality player with a great battery life but it comes without extras, which is the only con. The xio500 is an excellent player but the remote is a bit bulky, and has a few glitches. Uxmax DX-DPS2HD They are 4:3 The xio500 is a bit bulkier than the xio3, but the price makes up

---

for it. The xio500 has a greater number of connections and has a nice design with tons of bling. Conclusion: The xio500 is a nice add on player to the u

Q: Prove  $\dim \mathcal{M} \leq \frac{n}{\dim \mathcal{M}}$  for a map  $f: \mathbb{R}^n \rightarrow \mathbb{R}^n$ . Let  $\mathcal{M}$  be a linear subspace of  $\mathcal{L}(\mathbb{R}^n)$  with  $\dim \mathcal{M} = m$  and  $f: \mathbb{R}^n \rightarrow \mathbb{R}^n$  be a

map. Prove that  
 $\dim \mathcal{M} \geq \frac{n}{\dim \mathcal{M}}$  where  
 $\mathcal{M}_f \subset \mathcal{M}$  is the image of  $f$  in  
 $\mathcal{L}(\mathbb{R}^n)$ . I know it is true for  $m = 1$ , and I think that it is obvious for  $m > 1$ . I could not prove the general case. Here is my try: Let  $E$  be the image of  $f$ :  $f(x_1, \dots, x_n) = \left( a_1 x_1 + \dots + a_m x_m, b_{m+1} x_{m+1} + \dots + b_n x_n \right)$   $E := f(\mathbb{R}^n) = \{ g(x) \in \mathbb{R}^n : g(x) = a_1 x_1 + \dots + a_m x_m +$

Mitt Romney: 'We're Not Gonna Be Told' by President Obama published:27 Oct 2012 Mitt Romney: 'We're Not Gonna Be Told' by President Obama Mitt Romney: 'We're Not Gonna Be Told' by President Obama published:27 Oct 2012 views:6198 Mitt Romney spoke at the annual retreat of the Hinckley Institute of Politics at the University of Utah, a bastion of conservatism in a red state. He heaped praise on incumbent President Obama's foreign policy and reflected on his defeat in the 2012 Presidential election. Romney also took a shot at Obama's healthcare law and use of executive actions. FOX News Channel (FNC) is a 24-hour all-encompassing news service dedicated to delivering breaking news as well as political and business news. The number one network in cable, FNC has been the most watched television news channel for more than 16 years and according to a Suffolk University/USA Today poll, is the

---

most trusted television news source in the country. Owned by 21st Century Fox, FNC is available in more than 90 million homes and dominates the cable news landscape, routinely notching the top ten programs in the genre. Subscribe to Fox News!
