Griffin Smartphone cameras and video equipment are now available for every senior citizen and caregiver who wants to create and share personal video messages and images of their loved ones. You don't need a professional production crew, pricey video editing software, or a \$100,000 budget for a live production like you might for a TV commercial, theatrical performance, or music video. The term "telepresence" means "a place where you are present by being elsewhere." In the world of video production and editing, telepresence is a robust tool that lets you take video and images of yourself and your loved one(s) and relive their stories and bring them "here." Telepresence is a great way to share your images and remember them in a way that you can't do when

A: I found a solution. The problem of the.dll file was the old driver. I updated my driver and problem is solved. Updated on 03.24.17: Thanks to everyone that read the story. The videos in these posts have been added and are starting to play again. On Thursday, March 23rd 2017, at approximately 9:30pm, a 24-year-old Calumet, Michigan man shot and killed his girlfriend while she lay on the couch. The man fled the scene while holding a firearm and then showed up at a convenience store and robbed a cashier. He was arrested shortly afterwards. The next day, a group of neighbors woke up to find a house on fire. When they got there, they found a woman's body in a closet that had been set on fire. The cause of the fire was determined to be a gunshot wound to the head and the body was later identified as that of the Calumet man's girlfriend. The suspect had fled the scene with police right behind him. The suspect turned himself in two days later. The neighbors that found the body of the woman were all potential witnesses to the murder and now, they are considering

"This is the worst thing I've seen in a house. I?"
