description Flappy Bird  
Developer Download. How To  
Install Flappy Bird In IOS  
Devices. Flappy Bird Game For  
IOS Devices free download  
Flappy Bird game  
Flappy Bird  
(development code name was  
Bird) is an Android game that  
was developed and released on  
April 21, 2013 by American indie  
developer Dong Nguyen. It is

---

developed by the independent game developer Dong Nguyen as a part of his game prototype I think I can clear that. Dong Nguyen developed this game to work on his Nexus S and he thought it was a nice idea to pick one up. This was his first game so you know he wasn't all that experienced or so, he developed a prototype that he titled My

---

Transit and posted on Facebook for early testing. He was quite satisfied with the results, at one point the game had over 1,000,000 views on his profile page, and he received over a million downloads for IAPs (In-App Purchases) during the period before Google blocked apps containing In-App Purchases. The game started as

---

IAPs. Users could buy coins,  
which could be used to unlock  
extra levels

---

## System Requirements:

The minimum system requirements to run are:  
i7-4790K 3.60 GHz 16 GB RAM  
NVidia GeForce GTX 760 2GB  
Windows 10 64bit Multiplayer:  
You will be able to play with up to 4 players on a network  
Because the servers can be slow, we recommend at least 30

---

minutes before you join Join this  
if you want to play with other  
players As this is an online  
game, we recommend a data  
connection with at least 5Mbps  
connection speed It is
