safety in the emergency department: the
value of simulation. To determine whether a
simulation-based clinical skills training
intervention changed residents' level of
comfort in the emergency department (ED), its
value to residents and students, and how it
related to the use of restraints and fall rates.

We conducted a prospective quasi-
experimental intervention study in a
community hospital. Fifty-three residents and
medical students completed questionnaires
before and after a 4-week curriculum using
simulated patients with physical and/or
behavioral signs of a deteriorating medical
condition. Residents scored lower on comfort

in the ED before than after the program (p Nigel Farage, a former leader of the UK Independence Party (UKIP), has cited the contribution of the US to Canada's success, arguing that the US should be helping the UK, rather than imposing new immigration rules after Brexit. Speaking at the Economic Debate organised by the National Secular Society (NSS), Farage cited the border between the US and Canada and said this would serve as a model for the UK and Europe's post-Brexit relationship.
