Review - PC Gaming Nexus Review - IGN Review - GameSpot Review - Game Informer Review - Game Revolution Review - Eurogamer Review - Destructoid (From the critics) The Shadows Die Twice is the follow-up to 2014's The Sinking City, and as such has to to some degree live up to that game's success. And by "to some degree", I mean quite a bit of it. The story, for example, is just as engrossing, with more involvement from the NPCs and more frequent cut-scenes to keep things from getting bland. The action is just as effective, with players able to run the gamut of weaponry and skills through the game with a great deal of variety. Where the game really shines, however, is in its sheer scale. Tarnished is huge, with more variety to explore and a wider range of environments to combat in. There's enough to keep even the most experienced gamer busy for days, and despite all of that, there's still enough to do to keep newcomers interested as well. Easily one of the better action RPGs currently out, the game is worth a look for any fantasy or dungeon-crawling fan. When The Sinking City made its debut in 2014, it was met with a warm reception from both critics and fans. Today, it's also one of the best action RPGs out, so it's about time that developer The Game Bakers brought their series to the next logical step. And even though the sequel's multiplayer aspect is a bit underwhelming, the single-player still shines in Tarnished. The good: The story has been tightened up and given more direction, making the narrative more engaging than it has ever been before in the series. The scale is huge, and yet it's still able to make most of the game easily accessible and fun. The world is well-crafted, with a variety of environments and situations to experience. The story features multiple routes, which helps bring the narrative to life. The game can be completed in anywhere from an hour to multiple days depending on the length you want to take on. The combat feels great and is incredibly varied, with players able to mix and match a variety of weapons and skills to form their own playstyle. The game is a blast bff6bb2d33
