Elden Ring Features Key:

Eccentric Skill System Your character is designed with a unique attribute called Eccentricity. The degree of Eccentricity determines your character's special skill. Depending on your character's Eccentricity, your game time will be shorter or longer. Through Eccentricity, your character will be more suited to a specific situation. He or she will be able to maximize his or her performance as the game unfolds.
Unified Online In addition to multiplayer, a simple role-playing environment, a plus ranking system, and a customs interface, a new system called "Unified Online" has been added. With this system, even solo players can enjoy a consistent experience by connecting the game with a server, sharing and exchanging information about other players and enemies, and constructing a relationship with them.
Solo Play Mode In Solo Play Mode, you are not allowed to talk to other players. You can only build a relationship with them based on your experience as time passes, but whether or not you manage to do so will be at your discretion. So try to relax and have fun.

As you can clearly see, you will be quite challenged to try to learn new things. Even though it might be a bit of a tough challenge for some of the key features, the game is very full of unexpected surprises for you to enjoy.

Let's get started! I am Legend 4 will be updated with care, and I hope to play the game a lot with many new adventures. Thank you.
Feedback is VERY appreciated, like to build the next Legend Chapter!
