Field of the Invention The present invention generally relates to a mobile terminal, and more particularly, to a mobile terminal and controlling method thereof. 2. Description of the Related Art Mobile terminals have become indispensable communication tools in our daily lives. Users can perform a plurality of functions in a terminal such as playback of music files or moving pictures, reception and transmission of e-mails or Short Message Service (SMS), schedule management, etc. Furthermore, mobile terminals have evolved into multimedia players supporting various functions such as moving picture playback, broadcast viewing, high-definition (HD) video support, electronic game play, text messaging, camera functions, etc. With the advancement of technology, mobile terminals can be used to capture images and/or video without limitation to their transmission or movement. In this regard, people are given the opportunity to transmit image content anywhere and at anytime by using a mobile terminal. However, it is not easy to quickly process image content by using a mobile terminal.New Step by Step Map For reform in nigeria New Step by Step Map For reform in nigeria 5 Simple Techniques For reform in nigeria Northern Nigeria's agrarian inequality has been aggravated by huge deficits in farm utilization, and by a concentrate on in deporting farmers to desert farming areas.[fifty one] The position of indigenous farmers, who are mainly Muslim, has also been compromised by the Nigerian army's frequent use of gunpoint or by force to obtain control of the agricultural communities that they may occupy.[52] We know every little thing about youthful girls.
