What's new in Elden Ring:

Why Team TARNISHED?

A great co-op RPG needs great English voice cast talent. We are looking for talented voice actors who would fit the characters of the main heroes, specifically the casts of Final Fantasy and Dragon Quest.

Please help out with the characters for a little while by joining our Discord server or helping out in the Team TARNISHED channel on Thursday after 12:00 p.m. (Tokyo time) each week. If you aren't interested in voicing any characters or just want to listen and learn the voice lines, we are happy to provide that for free as well!

Interest in the design and operation of internal combustion engines has grown since the middle of the 19th century. Early efforts typically centered around the use of pulley-driven hammers or flyweights to generate power, along with such innovations as mufflers to reduce noise generated by the engines. Such efforts were initially aimed at providing relatively small engines for use with farm machinery, or for use in automotive vehicles. The first internal combustion engine developed for use in automotive applications was built by German engineer Karl Benz (patent was issued in 1885). The first internal combustion engine for use in a commercial automobile was the Benz patent's model, built in the early 1890's. A renewed interest in internal combustion engines stemmed from concerns about the declining reliability of steam engines. From the perspective of early engine users,
