“The Rise of the Sorcerers” Part One of the adventures from the “Houses of Freeport” setting for the Pathfinder Roleplaying Game. Welcome to “Return to Freeport, Part One: Curse of the Brine Witch”, a new adventure for the Pathfinder Roleplaying Game! “Return to Freeport, Part One” is the first adventure in a campaign set in Freeport, The Pugilist’s Booty, a setting first introduced in the “Houses of Freeport” setting book for the Pathfinder Roleplaying Game. “Return to Freeport, Part One” is designed to provide players with a point of entry into the City of Spires, since it is unlikely that they will have visited yet. It can also be played as a stand alone adventure if they don’t have a copy of the “Houses of Freeport” setting book or if they don’t want to play a full campaign in Freeport. Your scenario begins here in Freeport. After the climactic events of the “Houses of Freeport” campaign module: “House of the Cracked Pencil,” you and your companions must decide what to do about the murders. They know you, but how much do they know about you? Will you continue along the path of power? Or will you return to the underworld? Can you create a new life for yourself in Freeport and return to the mundane world of your birth? Or will you depart with your fellow adventurers into a world of magic and wonder? Your destination is Freeport, one of the most fantastic cities in the world. It is a city of magic and magic weapons, a city of scientific wonders and mythic legends. It is a city of adventures, and of course, it is a city of rogues. But not just any rogues, for Freeport is the home of all varieties of rogues, from the infamous and notorious to the obscure and casual. Will you become a House of Freeport? Story Background The city of Freeport is the home of several “House” organizations. These organizations include: The College of Salubrity, the Thieves Guild, the Dark Lantern Thieves Guild, and the Stiltzkin Raiders. These organizations often fight each other for territory and wealth, but they also often trade favors and information with one another. They are often the sources of the rumors that

**If anyone should be reading this, I apologize in advance for the rambling explanation. I will be the first to admit I am not a Japanese scholar, nor an expert in any language, English for that matter. I am an English man born and bred and taught to read, write, and speak in English, but through the years my fascination with all things Japanese and the customs of the people has continued and hopefully will continue to grow. As much of a nerd as I am with all my other interests, I do find the Japanese culture entertaining, stimulating and in many ways unique and in some ways similar to the English culture. I have written this explanation because I feel a desire to share this unique culture with my fellow Caucasians, or anyone interested, and because I enjoy your comments. I hope you find all this not only interesting, but also ennobling. When you travel a land of over 155,000,000 people, there would seem to be many similarities between the Japanese and the English. They both build airplanes, have armies with 400 years of battles between the two, use the spoken and written word, live in buildings, have beliefs, and most of all have suffering in both. Japanese society can be compared to that of England in that they are ruled by the shogun, although the power of the shogun is weak because he has to work with the people, the daimyo or ruler of the domain. There is a samurai class whose purpose is to please the shogun and if they fail that duty they are either killed or banished and the samurai have to earn the title Shugo by performing acts of bravery and even considered suicide on a shameful fact. I could compare Japanese culture to the culture in the U.S. where the majority in this country is Christian, or Evangelical Christian. Be thankful that I am not talking about the obvious but instead in more subtle ways in the constitution of this country. In many ways America and Japan are very similar and in many ways not, although not because of any foreign policy action on the part of Japan or the United States. Japan is different in that there is a strong traditional element and a sense of pride that is unique to the culture. Japan also has a strong heritage yet wishes to have a**
