The problem is, for some reason it doesn't work. So, how do I have to do this to have the active links in the page handle as well as the div with the click handler? Cheers! A: Try this: Some label text here Q: Turn off Auto-scroll in TScrollBar I am trying to create a simple TScrollBar. I am also using Delphi 2010. I want to turn off the auto-scroll feature. The issue is that the ScrollBar does not move when I hold the left mouse button and the mouse moves. The TScrollBar is not pre-scrolled at 0 and I want it to be zero when I hold the button. I have read the documentation for TScrollBar and tried all the methods that they offer (SetScrollPos, SetScrollRange, etc) but none of them seem to work. This is a simplified version of my own code. procedure TForm1.Button1Click(Sender: TObject); begin //Scrollbar to zero ScrollBar1.Position := 0; 6d1f23a050
