Cannot Load Idapi Service Library Delphi

sqlora8.dll - Can't load idapi service. I can't connect to my personal oracle 8.0.3 database using oracle 8 native driver with delphi 4 c/s on . I found that I have no way to connect to my personal oracle database from delphi 4 via oracle 8 driver on windows xp machine. I created a database called sqlora8 not oracle. I then tried to download the idapi.exe service from Windows Update but all I see is SQLORA8.DLL. I thought oracle 8 driver should load this dll. I copied/pasted/tried to paste sqlora8.dll in c:\\windows\\system32 folder and I even found sqlora8.dll in c:\\windows\\system32\\drivers.

Download

cannot load delphi idapi service library DLL autofac designer IDAPI.Cannot Find System.Classes How to load idsvc32.dll error Cannot find file 'AutoFac.Designer.exe' or one of its source files. Download and Install C:\Program Files\uae technical reason. Delphi 5. This machine ran Windows XP Professional Service Pack 1 and when I uninstalled Delphi it also deleted the.
