The songs take advantage of the game's time-based gameplay. Each song has a boss theme for the end of each round. The Kombat Pack also comes with a trio of Themes, each with a special meter to use in the spotlights. You can also form sets of special attacks to use during the Music rounds, such as "Lightning Round" or "Colossus of the Skies" when you knock your opponent to the other end of the arena. It also includes 8 new color palettes, 15 new and returning fatalities (counts for more winnings in the single player modes) and 17 new taunt animations. People who purchase the Kombat Pack will also receive access to MK9 online play. The Xbox 360 version features 14 new characters in both Story Mode and Arcade Mode, and also includes three new combos (thanks to developer's feedback). The Kombat Pack will be available on PS3, Xbox 360 and PC starting April 30th, 2011. It will cost \$19.99 / £13.99 / €15.99 / AU\$ 24.95 on all three platforms. It's also worth noting that the DLC is the only content to be included on the Premium Edition of Mortal Kombat X, at a cost of \$29.99 USD / \$39.99 AUD / 12 GBP / £19.99 or €24.99, depending on the region. All in all, Mortal Kombat X is well worth the cash. Fans of the series and action fighting game fans will certainly dig it. It's good to see that there is some effort put into improvement over the Kombat Pack of MK9. On the other hand, it's a bit weird that it wasn't included in the core game. For \$60, however, it's not a bad option. If you want all three of MK9's expansions (save MK11), then you could go for the Premium Edition, at less than half of the cost of the Kombat Pack.

Mortal Kombat (2011) Gameplay Mode(s) 8 player offline and online. (On PlayStation 3.)1-4 player offline and online. (On PlayStation Vita, PlayStation 4 and Xbox One.) Rating(s) BBFC: 18 ESRB: MaturePEGI: 18 Platform(s) Microsoft WindowsXbox 360PlayStation 3Playstation 4Playstation VitaPlaystation 4 (Via PS Now) We feel the game is finally doing their character a huge favor by giving them special moves. Gone are the days when characters like Tanya, Scorpion, and Kitana had just one special that was purely bad. Now you have...clashes like, Flying Hurricanoon Djinn stomps along at you with an insane rampage right after Fatality that just makes you want to explode. Characters like Ho-Oh and Umaga have actually doubled in size and can pull off some new moves. They also do a scene where they look like they're going to slaughter their opponents, but one hits a certain button and it turns into a fatality. Beyond the main characters, the game also features unplayable bosses and four downloadable characters. Sub-Zero is the unplayable boss and has some new moves and more. Quan Chi is also unplayable and is basically like a fatality version of Scorpion. Kratos is now playable and can be unlocked after playing through chapter 13 with Sub-Zero. Lastly, we have new characters like the Amazon warrior Kitana, as well as classic characters, such as Kung Lao and Reptile. 5ec8ef588b
