Q: CakePHP: Variadics arguments in call to unauthenticated function Looking for a solution for this error: Warning (2): parameters passed by reference in /private/var/www/cake_init/lib/Cake/Console/Shell.php on line 793 Fatal error: Call to undefined function App::set() in /private/var/www/cake_init/app/webroot/index.php on line 100 The function that generates the error call is: public function unauthorized_index(\$par1='default',\$par2='default',\$par3='default',\$par4='default',\$par5='default',\$par6='default') { \$this->Auth->set(\$par1,\$par2,\$par3,\$par4,\$par5,\$par6); ... } If i write the call as public function unauthorized_index(\$params) { App::set(array(\$params)); ... } The execution is successfully, but then i need to avoid some (not all) variable arguments. Edited: The generated class/function, App::unset() public function unset(\$name, \$var) { // Check that the variable exists if (isset(\$this->{\$name})) { // Found a valid variable, remove it unset(\$this->{\$name}); } else { // Create an error \$newErr = sprintf('Variable %s is undefined',\$name); throw new InvalidArgumentException(\$newErr); } } A: Found a solution public function unauthorized_index(\$par1, \$par2, \$par3, \$par4
