Akira (2016) - A Thrilling Action Movie You Don't Want to Miss

If you are looking for a thrilling action movie that will keep you on the edge of your seat, then you should watch Akira (2016). Akira is a Hindi-language action thriller film that was released on 2 September 2016. It is directed by A.R. Murugadoss, who is known for his blockbuster movies like Ghajini (2008) and Holiday (2014). The film stars Sonakshi Sinha, Anurag Kashyap, and Konkana Sen Sharma in the lead roles.

The film is a remake of the 2011 Tamil film Mouna Guru, which was a critical and commercial success. The film follows the story of Akira Sharma, a college girl who has grown up with the ideals of being self-reliant. Her life spirals out of control when she becomes unwittingly involved in a crime involving four corrupt police officers. She has to fight for her innocence and justice against all odds.

Why Akira is a Remake of a Tamil Movie

Akira is not the first Hindi movie that is inspired by a Tamil movie. In fact, many Bollywood movies have been remade from Tamil movies, such as Wanted (2009), Singham (2011), Rowdy Rathore (2012), and Drishyam (2015). The reason behind this trend is that Tamil movies are known for their originality, creativity, and quality. They often have engaging stories, realistic characters, and impressive action sequences.

Akira is based on the Tamil movie Mouna Guru, which was written and directed by Santha Kumar. The movie was praised for its gripping plot, strong performances, and social relevance. The movie also won several awards, including two National Film Awards for Best Editing and Best Audiography.

The Hindi remake of Mouna Guru was done by A.R. Murugadoss, who is a renowned filmmaker in both Tamil and Hindi cinema. He has directed several hit movies, such as Ghajini, Thuppakki, and Sarkar. He has also worked with Sonakshi Sinha before in Holiday, which was also a remake of a Tamil movie.

Akira retains the core plot and theme of Mouna Guru, but also makes some changes to suit the Hindi audience. For instance, the gender of the protagonist is changed from male to female, the setting is changed from Coimbatore to Mumbai, and the climax is changed from a shootout to a hand-to-hand combat. The movie also adds some elements of romance, comedy, and drama to make it more appealing.

How Sonakshi Sinha Shines as the Lead Actress

One of the highlights of Akira is the performance of Sonakshi Sinha as the lead actress. Sonakshi Sinha is known for her roles in movies like Dabangg (2010), Lootera (2013), and R... Rajkumar (2013). She has also done some action-oriented movies like Force 2 (2016) and Dabangg 3 (2019). However, Akira is her first solo action movie, where she plays the central character.

Sonakshi Sinha portrays the role of Akira Sharma, a college girl who has a troubled past. She was raised by her father, who taught her to be strong and independent. She also learned martial arts from him, which helped her to defend herself from bullies and eve-teasers. She moves from Jodhpur to Mumbai to pursue her education, but gets entangled in a crime that changes her life forever.

Her Action Scenes

Sonakshi Sinha impresses the viewers with her action scenes in Akira. She performed most of her stunts herself, without using any body doubles or special effects. She trained in martial arts for four months before shooting the movie. She learned different forms of fighting, such as karate, krav maga, and kickboxing. She also underwent rigorous physical training to get into shape for the role.

Some of the memorable action scenes in Akira are: when she beats up a group of goons who try to harass her in a pub; when she escapes from a mental asylum by fighting off the guards; when she confronts ACP Rane and his men in a warehouse; and when she faces ACP Rane in a final showdown on a railway track.

Her Emotional Scenes

Sonakshi Sinha delivers a convincing and powerful performance as Akira, and proves that she can carry a movie on her shoulders. She also breaks the stereotype of a typical Bollywood heroine, who is often dependent on the hero or plays a secondary role. She shows that she can be an action star as well as a versatile actor.

Another highlight of Akira is the performance of Anurag Kashyap as the villain. Anurag Kashyap is known for his work as a director, producer, and writer of movies like Gangs of Wasseypur (2012), Ugly (2013), and Bombay Velvet (2015). He is involved in a drug deal that goes wrong, resulting in the death of his partner and a college student named Maya. He tries to cover up his crime by framing Akira for Maya's murder. He also tries to kill Akira and anyone who comes in his way.

His Cruelty

Anurag Kashyap portrays his cruelty and brutality in Akira. He shows no remorse or guilt for his actions, and enjoys inflicting pain and suffering on others. He is ruthless, sadistic, and merciless. He does not hesitate to kill, torture, or threaten anyone who opposes him or challenges him.

Some of the scenes that show his cruelty are: when he shoots his partner in cold blood; when he throws acid on a witness's face; when he beats up Akira's father; when he tortures Akira in a mental asylum; and when he tries to run over Akira with a train.

His Humor

Anurag Kashyap also adds some humor and sarcasm to his character. He makes some witty and sarcastic remarks that lighten up the mood and make him more interesting. He also mocks and taunts his enemies and rivals, showing his confidence and arrogance.

Some of the scenes that show his humor are: when he jokes about his partner's death; when he makes fun of SP Rabiya's name; when he calls Akira a "chudail" (witch); and when he laughs at Akira's attempt to fight him.

How Konkana Sen Sharma Supports the Story

Konkana Sen Sharma is an acclaimed actress who has won several awards for her movies like Mr. and Mrs. Iyer (2002), Page 3 (2005), Omkara (2006), and Wake Up Sid (2009). She has also directed a movie called A Death in the Gunj (2016).

Konkana Sen Sharma plays the role of SP Rabiya Sultan, an honest and determined police officer who investigates Maya's murder. She is one of the few people who believes in Akira's innocence and tries to help her. She also faces challenges from her male colleagues, who are either corrupt or incompetent.

Her Dedication

Konkana Sen Sharma shows her dedication and professionalism in Akira. She is committed to finding the truth and bringing justice to the victims. She does not give up easily, even when she faces obstacles and threats. She also follows her instincts and intuition, which lead her to the right clues.
